Disclaimer: The lubricants and providers listed herein are presented solely for the purpose of documenting lubricants that were tested for compatibility with our products. This listing does not constitute an endorsement, recommendation, or preference for any of the mentioned lubricants, manufacturers, or providers. The inclusion of any lubricant in this list does not imply that it is superior to other available options, nor does it indicate that other lubricants or providers are unsuitable for use with our products. There may be additional lubricants, manufacturers, or providers — whether known or unknown to us — that are fully compatible or otherwise appropriate. It remains the sole responsibility of each customer to verify and comply with all applicable sanction laws and regulations prior to purchasing any of the mentioned lubricants.

1. Approved trade products

Product groups	approved trade products
CeTrax electric central drive CX220	ZF EcoFluid Life Plus (ZF001719) ZF EcoFluid E (ZF008340) Total FLUIDMATIC HD XLD (ZF011911)

2. Maintenance recommendations

CeTrax electric central drive is normally filled with oil maintenance-free. An oil change is therefore only necessary when repairs are carried out.

Please note that only oil that has been approved according to this List of Lubricants may be used for the oil change. You must also ensure that the oil change is carried out according to the repair instructions / technical manual.

Please observe also the specifications of the vehicle manufacturer.

Comments

Additives of any kind added **later** to the oil change the oil in a manner that is unpredictable, and they are therefore not permitted. No liability of any kind will be accepted by ZF for any damage resulting from the use of such additives.

ZF will not assume liability for damage caused by non-observance of our maintenance instructions.
