SACHS

CLUTCH PROGRAM

FEATURES AND BENEFITS

PROVEN PERFORMANCE

THE WORLD'S PREMIER CLUTCH SUPPLIER.

SACHS has been a component supplier and systems partner to the international automobile industry for more than 100 years. By working in close partnership with vehicle manufacturers and race teams, SACHS is able to create clutch technology that delivers maximum benefits for end-users.

OE SUPPLIER

As an OE clutch and component supplier, our products are developed to meet the highest demands of the world's leading car makers. As a result, installers can satisfy the expectations of their customers with the highest quality, most reliable clutch kits and complementary parts available on the market today.

QUALITY PARTS FOR EVERYONE.

OVERALL PROGRAM

SACHS Clutch Kits and Components are OE-matched and provide consistent quality from kit to kit. The program includes kits, covers, discs, bearings, flywheels as well as master and slave cylinders.

Our SACHS Clutch Program offers features not found anywhere else:

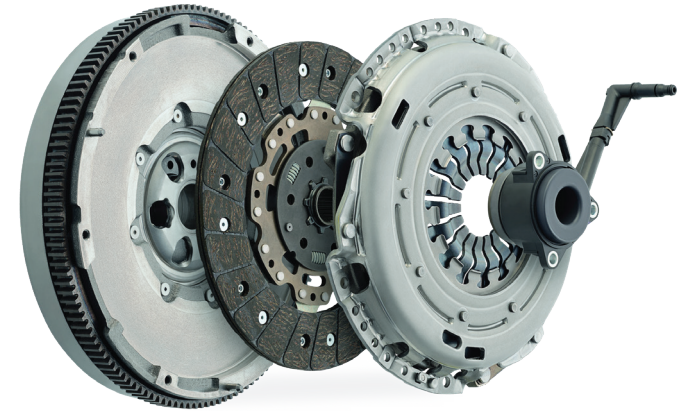

- The most complete clutch kit line offering in the industry
- Unmatched Asian, Domestic and European coverage
- Exclusive parts not available through other suppliers
- Complete range of complementary parts

CYCLE TESTED

If it is in our catalog, it has been tested to meet or exceed our specifications. Taking this step reduces returns and pleases customers with a long service life.

COMPLETE KITS

In order to reduce installation time, SACHS SuperSet Clutch Kits come with everything needed for installation: cover, disc, releaser, pilot tool, pilot bearing or bushing (if required) and spline lube pack.

FACT

SACHS makes purchasing and fitting automotive parts easy with an online catalog and technical support.
