SAFETY DATA SHEET
According to Safe Work Australia Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals

Trade name: ZF EcoFluid M

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Trade name: ZF EcoFluid M

Product code: 0671.090.384
0671.090.385
0671.090.386

Substance/mixture: Mixture

1.2 Recommended use of the chemical and restrictions on use

Use of the Substance/Mixture: Transmission oil.

Uses advised against: Do not use for any purpose other than the one for which it is intended

1.3 Details of the supplier of the safety data sheet

ZF Friedrichshafen AG
ZF Aftermarket
Obere Weiden 12
97424 Schweinfurt
Germany
+49 9721 475 60
www.zf.com/contact

1.4 Details of Australian Importer/Supplier

ZF Services Pty Limited
Unit 1, 13 Bessemer Street
Blacktown, NSW 2148
+61 2 9679 5555

1.5 Emergency telephone number
24/7 Emergency telephone number:
Australia ZF 24/7:
Tel (+1) 300 938 324

International GBK-EMETEL:
Tel (+1) 352 323 3500

+49 89 19 240 Information in German and English
2. Hazards identification

2.1 Classification of the substance or mixture
Not classified as hazardous according to Australia Model Work Health and Safety Regulations

2.2 GHS Label elements, including precautionary statements
Signal Word: None

Other hazards which do not result in classification

Physical-Chemical Properties
Contaminated surfaces will be extremely slippery

Environmental properties
Should not be released into the environment

3. Composition/information on ingredients

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Additional information
Product containing mineral oil with less than 3% DMSO extract as measured by IP 346.

4. First aid measures

4.1 First aid measures for different exposure routes
General advice:
IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.

Eye contact:
Rinse thoroughly with plenty of water, also under the eyelids.

Skin contact:
Remove contaminated clothing and shoes. Wash off with soap and water. Wash contaminated clothing before reuse.
SAFETY DATA SHEET
According to Safe Work Australia Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals

Trade name: ZF EcoFluid M

Inhalation: Move to fresh air.

Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.

4.2 Most important symptoms/effects, acute and delayed

Skin contact: Not classified. May produce an allergic reaction.

Eye contact: Not classified.

Inhalation: Not classified. Inhalation of vapors in high concentration may cause irritation of respiratory system.

Ingestion: Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician Treat symptomatically.

5. Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: Carbon dioxide (CO2). ABC powder. Foam. Water spray or fog.

Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire.

5.2 Specific hazards arising from the chemical

Special Hazard Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.
SAFETY DATA SHEET
According to Safe Work Australia Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals

Trade name: ZF EcoFluid M

5.3 Advice for firefighters

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus and protective suit.

Other information: Cool containers / tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

General Information: Do not touch or walk through spilled material. Contaminated surfaces will be extremely slippery. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition.

Other information: See Section 12 for additional information.
Personal Protective Equipment
Waste treatment See Section 8 for more detail. See section 13.

6.2 Environmental precautions

General Information Do not allow material to contaminate ground water system. Try to prevent the material from entering drains or water courses. Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up: Dam up. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.

7. Handling and storage
### 7.1 Precautions for safe handling

**Advice on safe handling:**
When using, do not eat, drink or smoke. For personal protection see section 8. Use only in well-ventilated areas. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing.

**Prevention of fire and explosion**
Take precautionary measures against static discharges: Ground/bond containers, tanks and transfer/receiving equipment.

**Hygiene measures**
Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into work-wear pockets.

### 7.2 Conditions for safe storage, including any incompatibilities

**Technical measures/Storage conditions**
Keep away from food, drink and animal feedingstuffs. Keep in a bunded area. Keep container tightly closed. Keep preferably in the original container. Otherwise reproduce all indication of the regulation label on the new container. Do not remove the hazard labels of the containers (even if they are empty). Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. Protect from frost, heat and sunlight. Protect from moisture.

**Materials to Avoid**
Strong oxidizing agents.

### 8. Exposure controls/personal protection

### 8.1 Control parameters

**Exposure limits**

SAFETY DATA SHEET
According to Safe Work Australia Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals

Trade name: ZF EcoFluid M

------------------------------

USA: OSHA (PEL) TWA 5 mg/m³, NIOSH (REL) TWA 5 mg/m³, STEL 10 mg/m³, ACGIH (TLV) TWA 5 mg/m³ (highly refined).

8.2 Individual protection measures, such as personal protective equipment

General Information: If the product is used in mixtures, it is recommended that you contact the appropriate protective equipment suppliers. These recommendations apply to the product as supplied.

Eye/Face Protection: If splashes are likely to occur, wear: Safety glasses with side-shields.

Skin and body protection: Wear suitable protective clothing. Protective shoes or boots. Long sleeved clothing.

Hand protection: Hydrocarbon-proof gloves: Nitrile rubber, Fluorinated rubber. In case of prolonged contact with the product, it is recommended to wear gloves complying with EN 420 and EN 374 standards, protecting at least for 480 minutes and having a thickness of 0,38 mm at least. These values are indicative only. The level of protection is provided by the material of the glove, its technical characteristics, its resistance to the chemicals to be handled, the appropriateness of its use and its replacement frequency.

Respiratory protection: When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Respirator with combination filter for vapour/particulate (EN14387). Type A/P1. The use of breath-

**9.2 Other information**

Freezing Point: No information available

**10. Stability and reactivity**

**10.1 Reactivity**

No information available

**10.2 Chemical stability:**

Stable under recommended storage conditions.
10.3 Possibility of hazardous reactions: None under normal processing.

10.4 Conditions to avoid: Heat (temperatures above flash point), sparks, ignition points, flames, static electricity.

10.5 Incompatible materials: Strong oxidising agents.

10.6 Hazardous decomposition products: None under normal use. Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot.

11. Toxicological information

11.1 Acute toxicity

Information on likely routes of exposure

Skin contact: Not classified. May produce an allergic reaction.

Eye contact: Not classified.

Inhalation: Not classified. Inhalation of vapors in high concentration may cause irritation of respiratory system.

Ingestion: Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Symptoms related to the physical, chemical and toxicological characteristics

Symptoms: No information available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Acute toxicity - Product Information
Component Information
Oral: Not classified.
ATEmix (oral): 16,024.00 mg/kg
0 % of the mixture consists of ingredient(s) of unknown acute oral toxicity

Skin corrosion/irritation Not classified
Serious eye damage/eye irritation Not classified
Sensitization Not classified as a sensitizer. May produce an allergic reaction. Contains sensitizer(s).
Carcinogenicity This product is not classified carcinogenic.
SAFETY DATA SHEET
According to Safe Work Australia Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals

Trade name: ZF EcoFluid M

Mutagenicity

This product is not classified as mutagenic. Contains no ingredient listed as a mutagen.

Germ Cell Mutagenicity

This product is not classified as mutagenic.

Reproductive toxicity

Not Classified.

STOT - single exposure

Not Classified.

STOT - repeated exposure

Not Classified.

Aspiration Hazard

Not Classified.

Other adverse effects

Characteristic skin lesions (pimples) may develop following prolonged and repeated exposures (contact with contaminated clothing).

12.4 Mobility

Soil

Given its physical and chemical characteristics, the product generally shows low soil mobility.

Air

Loss by evaporation is limited.

Water

Insoluble. The product spreads on the surface of the water.

12.5 Other adverse effects

General Information

No information available.

13. Disposal considerations

13.1 Waste treatment methods

Waste Disposal Methods / Unused Products:

Should not be released into the environment. Dispose of in accordance with local regulations.

Contaminated packaging:

Empty containers should be taken to an approved waste handling site for recycling.
SAFETY DATA SHEET
According to Safe Work Australia Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals

This safety data sheet serves to complete but not to replace the technical product sheets. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. It is understood by the user that any use of the product for purposes other than those for which it was designed entails potential risk. The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfil his obligations. This list is not to be considered complete and exhaustive. It is the user’s responsibility to ensure that he is subject to no other obligations than those mentioned.
