

## Replacement – Steering Gear JRP600

Your vehicle may be fitted with either a ZF or Koyo steering gear. These units are fully interchangeable.

**Example:** If the vehicle is fitted with a steering gear from **ZF**, you may install the **KOYO** gear, without any changes to steering system or vehicle.

The same applies when returning the old steering gear. Whichever of these two steering gears you return to us, we will refund the deposit.

The criteria for returning the steering gear is listed below.

- ① Complete and attach the red label to the old part.
- ② Return the complete old part.
- ③ There should be no damage to mountings or jacket tube.
- ④ Protect threads and nuts.
- ⑤ Drain off oil and close with plug.
- ⑥ There should be no damage to the thread in the ports.
- ⑦ There should be no damage to axial joints.

**Return old parts properly packed in original packaging material.**
