

BMW Z3 M (E367) and M3 (E36)

Standard-Specification and M-Specification are different. The standard application is rubber damped.

The different designs are not interchangeable!

Standard-Application

With rubber damped ball joint
TRW part number:
JTC144 & JTC145

M Application

Without damped ball joint used in:
Z3 M Convertible, Coupe (E367)
and M3 (E36)

Important: Always measure and adjust the steering geometry to the vehicle manufacturer's recommendations, do a test drive and make a final test.
