"With the SACHS Super Touring Shock Absorbers, my car's handling is much better, making my daily drive smoother than ever. I'm already thinking of installing the SACHS shock absorbers on my other car – a Proton Exora – and would definitely recommend this to my car club!"

"With the new SACHS Shock Absorbers, driving is much more comfortable and enjoyable. Not only is the handling better, the ride quality has also vastly improved. The best part, my tyres stay in contact with the road even over big bumps and undulating terrains for an extremely smooth ride."

Name:
Mr Peter Poh
Car model:
Toyota Camry 2.4V
Year of Installation:
2015

"Since I installed the SACHS Shock Absorbers, my car is showing lots of improvement! Besides better handling, it also has better grip when taking corners. Most importantly, I have better control over my car, especially during hard braking. Overall, my ride is way more comfortable."

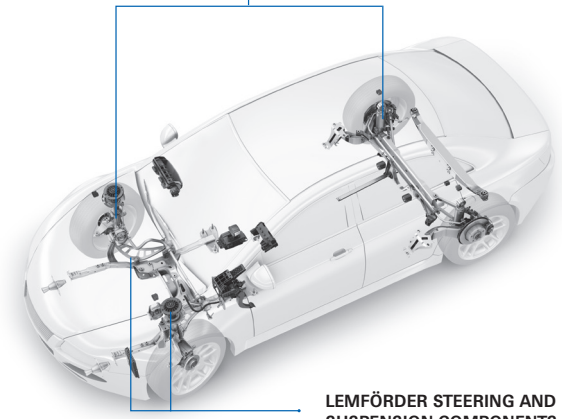

"Having installed the SACHS Shock Absorbers, my Camry feels really firm and comfortable, especially when driving on the highway. Handling is good even at high speed. The drive is also less bumpy on unpaved kampong roads."
